Hoy muchas estafas en el comercio, ¿cómo sé que esta no es una de ellas?

1st Actually, there are scams with cars, properties, women, etc. It is Humans who are flawed, not the Product. 2nd ARIA Robot does not stay inside our own website/Software, but stays inside Binance.com, which is the WORLDS largest exchange! Evaluated at 1.5 Billion Dollars. 3rd The funds stay in YOUR account not ours. We only get access to trade your funds thru API. It is like giving us access to control remotely your laptop. We cannot take your laptop away even if we wanted to.

1º En realidad, hay estafas con coches, propiedades, mujeres, etc. Son los Humanos los que tienen defectos, no el Producto. 2nd ARIA Robot no permanece dentro de nuestro propio sitio web / Software, sino que permanece dentro de Binance.com, ique es el intercambio más grande del MUNDO! Evaluado en 1.5 mil millones de dólares. 3º Los fondos permanecen en SU cuenta, no en la nuestra. Solo tenemos acceso para negociar sus fondos a través de API. Es como darnos acceso para controlar de forma remota su computadora portátil. No podemos quitarle su computadora portátil incluso si quisiéramos.
